

MAKING NEW EQUIPMENT AFFORDABLE

Let the energy savings help cover the monthly payments on your new equipment.

Commercial building owners don't always have the capital budget available to tackle much needed equipment replacement. A Commercial Operating Lease may be a better alternative to using up capital to upgrade your current equipment. Our program offers convenient monthly payments available on the Enbridge gas bill or pre-authorized payments. The program is flexible, providing multiple terms to choose from, optional maintenance plans, and potential tax benefits for your business.

Our commercial operating lease program offers multiple terms ranging from 3 to 10 years with competitive rates. No project or customer is too big or too small. Our clients include:

- Condominiums
- Institutional/Municipality
- Retirement Homes
- Rental Apartments
- Office Buildings
- New Construction & Renovations

Equipment Types:

...and more

- Refrigeration
- VRV/VRF Systems
- Heat Recovery
- Rooftop Units
- Split System Heat Pumps
- Water Cooled Systems
- Multi-zone Systems
- Heating & Cooling Systems

Benefits to the Customer:

- Payments collected on the Enbridge* bill or pre-authorized payments (PAP).
- Maintenance can be included as part of the monthly payment.
- Multiple term options
- Commercial Leasing and Financing can overcome capital constraints and make any project possible. Let us show you how the savings can pay for new equipment installations.
